

**We Invented the  
World's Greatest  
Snow and Ice Melter  
Because We Had To.**

### **Pioneers in the Science of Snow and Ice-Melting**

When you experience over 700 inches of snow every year, you're familiar with snow and ice issues. And when you live in the heart of the Rockies, you're probably sensitive to environmental concerns too. That's why customers have relied on us for over 50 years to develop formulas that work faster, longer and safer. Because protecting our clients' assets is as important as melting the snow and ice.

### **Liquid Superior Sno-N-Ice Melter® the Safest, Most Powerful De-Icer**

Designed for commercial and residential customers concerned with protecting assets and vegetation. Liquid Superior Sno-N-Ice Melter® delivers anti-corrosion power in a more economical form.

- Effective to -20°F (-29°C)
- Non-corrosive to metal and concrete
- Safer for people, animals and vegetation\*
- More slip resistant than pellet ice melters on stairwells
- Long lasting to prevent freeze-thaw-refreeze cycles
- Unlimited shelf life (never cakes or clumps)
- Will not damage leather or carpets

### **Suggested Uses for Liquid Superior Sno-N-Ice Melter®**

- Stairwells for avoiding slipping hazards
- Parking structures where chloride containing ice melters may cause corrosive damage
- Sidewalks and entryways before a storm to prevent ice from forming
- Following ice storms to deice and break the bond ice forms with concrete
- Prewetting road salt to increase performance at low temperatures

\*When used as directed.

---

Ensure your driveways, sidewalks and parking structures are safe and secure.
